

Corona - The Surface Mounting Downlighter (Round and Square Versions) from C&S Electric.

Corona Surface LED Downlights range comes in various ratings offers smooth and uniform illumination. The environment friendly downlights are energy efficient and ideal solution for surface ceiling installations.

Corona Series

- Available Wattages – 12 & 18W in Cool Daylight and Warm White versions
- Downlighters Dimensions
 - Round-diameter size Ø170mm (12W) and Ø216mm (18W).
 - Square-size 170 X170mm (12W) and 216 X216mm (18W).
- PDC aluminum housing powder-coated white.
- Inbuilt detachable drivers
- Low heat-generating mid-power LEDs of latest generation SMD technology built on high heat diffusivity MPCB.
- High efficacy LEDs of >120 lm/W perfect replacement for the energy-wasting CFL and metal-halide downlighter.
- Maintenance free service life. High Life of >50,000 burning hours (for LED light source) and >30,000 burning hours (for system).
- Low heat generating, constant current electronic Driver with Power Factor >0.9 and Total Harmonic Distortion <30%
- Weatherproof with Ingress Protection of IP6X.
- Provided with built-in Short-Circuit Protection and Surge Protection.
